Rabat, Morocco

Summary

I'm a seasoned Senior Software Engineer with over 9 years of experience in full-stack development, mobile engineering, and UI/UX design. I've led cross-functional teams, built scalable platforms from scratch, and delivered high-performance web and mobile applications. I'm an expert in modern JavaScript frameworks, mobile technologies, and backend systems, with a strong focus on performance, user experience, and SEO. I'm known for collaborating closely with founders and stakeholders to drive product vision and technical excellence.

Skills

TypeScript, AWS, React, React Native, Node.js, Express.js, Python, Typescript, Next.js, Fastify, CSS, Tailwind, Vue.js, SQL, NoSQL, Supabase, MongoDB, PostgreSQL, FastAPI, LangChain, Vector Databases, Firebase, Serverless Functions

Experience

Senior Software Engineer

KOBEYO · San Francisco, CA

06/2024 - 07/2025

- Rebuilt the legacy Manager app from scratch using modern technologies.
- Integrated Manager and Seeker apps for real-time synchronization.
- Prepared the application for a successful product launch.
- Collaborated directly with the founder on critical technical and UX decisions.

Senior Software Engineer

SlashDev · Florida

07/2021 - 07/2025

- Designed and built the SlashDev platform frontend from the ground up.
- Achieved a 100% Lighthouse SEO score across all categories.
- Later joined the Elite Team to deliver high-impact solutions for various web and mobile app SlashDev clients.
- Built a fully fledged AI and ML powered daily tasks scheduler that utilizes voice recognition and speaks back to you to act as your daily companion
- Built a finance chatbot that learns from financial textbooks and answers questions provided by students using knowledge graph (RAG)

Senior Mobile Engineer

InFlows · San Francisco, CA

06/2023 - 08/2024

- Built a social media app for entrepreneurs and business leaders from scratch.
- Developed both frontend and backend, ensuring scalability and high performance under heavy user loads.

Lead Software Engineer

MyDojo · Abu Dhabi

03/2020 - 12/2023

- Led a team of 4 developers to build a tournament platform.
- Developed AI-powered data scrapers and maintained system performance during large-scale events.
- Partnered with founders to guide key technical decisions.

Senior Frontend Engineer

Befeni GmbH · Germany

05/2021 - 06/2022

- Modernized and rewrote legacy pages using React.
- Designed clean, responsive UI components for storefront pages.

- Developed and maintained new client-requested features, including the product gallery page.

Front End Engineer

KTBYTE · Massachusetts

08/2018 – 03/2020

- Enhanced website aesthetics and usability.
- Improved frontend performance and visual consistency across pages.

Lead Dev and Owner

EsportPoints

06/2017 – 09/2019

- Co-founded and led development of a reward-based e-sports platform.
- Built full-stack web architecture and cross-platform mobile apps using React Native and Expo.
- Managed both frontend and backend systems for user task tracking and reward distribution.

Lead Software Engineer

Slips.io · San Francisco, CA

07/2018 – 07/2019

- Led full-stack development of a competitive tech platform from inception.
- Architected scalable systems and delivered high-quality frontend and backend code.

Full Stack Developer

100 Danish

10/2017 – 06/2018

- Delivered full-stack solutions for various client projects as part of an agency team.
- Focused on fast-paced development and code quality across diverse technologies.

Frontend Developer

XDA Developers · Remote

12/2016 – 10/2017

- Led frontend development for the launch of “XDA Live” feature.
- Worked closely with the core XDA team to ensure a smooth integration and responsive design.

Education

Software Engineering

Udacity · Remote

10/2015

Completed courses in computer science, robotics, and statistics
